MEMORANDUM FOR: Executive Officer, OSA
Comptroller, OSA
Deputy for Operations, OSA
Deputy for Materiel, OSA
Security Staff, OSA
Aero Medical Staff, OSA

SUBJECT : Career Development Course #4

REFERENCE A : ☐ 8725-69 dated 7 March 1969,
Subj: Schedule for Presentations by OSA
(Course #3 Last Year)

1. The DD/S&T Career Development Course #4 is scheduled to start on 5 January. OSA has been allotted four days starting at 1300 on 23 March and ending at 1200 on 27 March. In addition the Director, OSA, is scheduled for one half hour at 1300 for the kickoff session 5 January 1970. ☐ the Course Director, has asked us to provide an outline of the OSA presentation by 5 December.

2. Accordingly, an OSA schedule outline (Attachment I) has been prepared based on last year's presentation (Ref A), subsequent student comments on last year's course (Attachment II), and information received from this year's course director (Attachment III).

3. More handout material and some time for questions/discussion at the end of each session are being stressed for this year's course. It was agreed between ☐ and the writer that ☐ lengthy history of last year be condensed to ten minutes of highlights and combined with and as a lead into the CIA/NRO Programming Interface session given by the Comptroller's Office. The outline for last year's history session is located in the EXO/SA files. Course detail outlines for all other sessions for last year's course reside with the respective components responsible for each session. Again this year each component is responsible for the development and presentation of its sessions as indicated on Attachment I.

MEMORANDUM FOR: Director of Special Activities

ATTENTION :

SUBJECT :

Student Comments on OSA Presentations to DD/S&T
Career Development Course #3.

1. The following summary of the students' comments on the OSA presentations to the Career Development Course #3 is sent for your information. In general, your program was rated one of the best organized and most effectively conducted of the Course, even though it had to be compressed into three days. Please let me emphasize that these comments represent a cross-section of student reaction and that opinions differed widely, depending on the students' backgrounds.

Specific Comments

a. The Photo Sensor Systems briefing was somewhat too detailed for the time allowed.

b. The Engine and Vehicle Performance briefings were considered important to the Course and handled well by the speaker, but for greater effectiveness should have been earlier in the day and given more time.

c. The Project Security briefing was considered by a large proportion of the students to have been needlessly detailed.

d. The CIA/NRO Programming session deserved expansion. The funding mechanism and the interaction between CIA and NRO are of considerable student interest.

e. The presentation on Contract Management was very highly rated by a few; the others considered it either irrelevant to the OSA program or of only casual value (to their present work).

f. The ELINT presentation could have been strengthened by some additional time in the view of those involved in electronics; the others had no comments. The [redacted] 25X1D should have been coordinated with OEL, since the subject had been covered, in part, earlier in the Course.

g. The concluding Discussion Period was judged an extremely effective ending to the OSA program. The timing was about right and the spirit in which it was conducted was welcomed. ✓

h. Schedule for four days again next time.

25X1A

i. The visit to Edwards North Base was very efficiently handled by [redacted] and his additional arrangements for an included tour of the NASA Center were greatly appreciated. ✓
Needless to say, the fly-by was the highlight of the day, but the displays and opportunities to talk with those involved provided a worthwhile experience.

2. Thank you very much for your cooperation and efforts in making the OSA presentations such a success. Please relay our appreciation to all those who participated.

MEMORANDUM FOR: [REDACTED] OSA

SUBJECT: DDS&T Career Development Course # 4

1. Bob, as agreed, you will be listed as the OSA focal point for "the Course" and will receive info on the students, etc. when available.

2. You should have a copy of last years critique and as mentioned to you, I have some additional suggestions in my office (Room 6-E-38, Hqs.) for your presentations. I will be available to work out the details with you as the time nears. The schedule provides OSA with 4 days, 23-27 March, (one-half day on each end). We are reserving 20-30 April for the West Coast trip - 9 days. The Director, OSA also is scheduled for 1300 (one-half hour) for the kick off session 5 January 1970, if this time is convenient.

3. Although you will be somewhat constrained by your project classifications, we are encouraging the liberal use of handouts this year, plus adequate time for questions and discussion. I'm especially looking forward to this part of the course since the students praised it so highly last year. In order to prepare the student notebooks and circulate a final schedule, we will need at least a brief outline of your presentations by 5 December 1969.

MEMORANDUM FOR: Director of Scientific Intelligence
Director of Computer Services
Director of Special Activities
Director of Special Projects
Director of Research and Development
Director of ELINT
Director of Foreign Missile and Space Analysis
Center

SUBJECT : Schedule for DDS&T Career Development Course # 4

1. As you know, we circulated a tentative course schedule in early August. Some changes were recommended by the Offices at that time. As I have now had an opportunity to discuss these recommended changes and to review the Office participation with you or your contact and other Agency components, we are circulating a new schedule for planning.

2. You will note that the scheduling of general class time allows some additional flexibility. Most of the times given have been agreed upon by course participants and the schedule now appears relatively firm although some changes obviously may be required as time passes.

3. As requested, we will need an outline of scheduled Office participations by 5 December 1969 in order to prepare the necessary notebooks. It would be appreciated if those Offices sponsoring field trips keep the Course Director apprised of their plans. I appreciate your cooperation in this effort.
